BOOKLET

Sadly we couldn't hold the last of the ISE events physically this year in France, Belgium, England or the Netherlands, but as the project will be ending after December 2020, we have some key information we want to share with you all to help you to stay in touch with other companies going forward, as well as information about future activities. →

LINKEDIN The ISE Digital & Creative Cluster group on LinkedIn will also still be available for you to access after ISE has ended. You can stay in touch with cluster members and ISE partners here. Partners will also be able to continue to share relevant event information in the group here:

www.linkedin.com/groups/8648180/

SLACK Much the same as the LinkedIn group, the ISE Digital & Creative Cluster group on Slack will also still be available for you to access after ISE has ended. The ISE Slack channel is available via this URL: ise2seas.slack.com

IMAGINEERS INTERNATIONAL As many of you may already be aware, over the last few months, a small group of companies from the ISE Digital & Creative Cluster from all of the ISE partner regions have been working together as a committee to put future plans in place for the cluster for when the ISE Project comes to an end in December 2020 including ways to support collaborations between businesses in the different partner regions. This will now include some common branding and a website for the new Imagineers International Cluster, to bring together all of the companies which have taken part in the various ISE events and activities.

The cluster committee members per region are listed below:

Kent – Dan Lawrence & Terry May (Durt Media), Lee Probert (Weald Creative), Warren Sutton (Flourish)

Hauts-de-France – Julien Gouz (Concrete Imagination)

SW of the Netherlands – Mitch Van Veldhoven (Goedzooi) & Katja Wevers (KWA Ontwerp)

Belgium – Els Delaere (Flemish ISE partner - temporary)

Are you interested in becoming a Founder?
Or are you just interested in hearing more about the Imagineers International in your inbox? Leave your details for now, and the committee members will let you know when they are ready to accept new members. Register your interest here:

Contact ISE Partner
in your region for more infos.

FUTURE EVENTS

2021 *DATE TBC

We will put you in touch with doctoral students and experts from KU Leuven (Technology Campus Ghent) and we will look into innovations within the food industry.

Are you curious about new sweeteners, alternative proteins or would you like to know more about the biofilms that cover food?

You will learn more about this during 5 interesting talks.

ExpertFinder INNOVATION IN FOOD

FOOD COMPANIES:
STEP BY STEP
INVESTMENT IN
FACTORIES OF THE
FUTURE!

“Our food companies invest in a smart, modern and flexible machine park with which they produce both highly innovative and more traditional quality products. That keeps our companies competitive and, moreover, they invest not only in technology, but also in talents. People are very central to the factory of the future. As a sector, we have to play that even better to attract more talents to food processing, for example with the Food At Work brand,” says Geert Vermeersch, chairman of Fevia Vlaanderen.

Jan Vander Stichele, chairman of Flanders 'FOOD': “The winners of the Factory of the Future Awards show that every food company, including the many SMEs, can take steps to adapt to the requirements of industry 4.0.”

CONTENT WILL INCLUDE

- Innovation in Packaging – Biofilms
- Alternative Proteins (Meat Substitutes)
- Microbial Ingredients
- Alternative Sweeteners
- Regulation of New Nutrients
